## Elite Series Powder Unit

### Manual Powder Cart

#### High-quality coating with an easy-to-use, multifunctional powder cart system

This versatile system is designed for your manual powder coating needs. It features vibratory box feed and fluid hopper configurations with options for single or dual applicators, as well as a variety of cable and hose lengths. An automatic cleaning function and built-in cleaning air purge valve come standard. Color changes can be completed in just 30 seconds.

The ergonomic, advanced manual powder gun is one of the lightest in its class, which helps reduce operator fatigue and improve efficiency. On-gun controls allow for easy program and powder flow adjustments. The controller is IP64 FM/ATEX rated, making it suitable for operation within the booth. It includes a 7-inch bright, colorful touchscreen with intuitive controls that simplify setup and operation. Experience outstanding powder charging, high transfer efficiency, and savings in powder usage with this system.
